# Industrial Engineering and Systems Management Conference 2013

## IESM 2013, RABAT - MOROCCO - October 28-30, 2013

## Guest Session:

## Multidisciplinary optimization

**Session Chair:**
Rachid ELLAIA (Professor LERMA - EMI)

**Topics:** The aim of this session is to present salient current research and application studies, using evolutionary multiobjective optimization methodologies, General methods and algorithms ranging from local optimization to global optimization and hybrid meta-heuristic algorithm.
Applications covers Topology optimisation, Reliability-based multi-objective optimization and engineering optimization.

**Keywords:** Multi-objective design optimization, meta-heuristic, structural optimization, hybrid algorithms,

**Submission:**

Deadline: April 19, 2013 - Extra-deadline

IESM2013  contact@iesm13.org

For author guidelines, please refer to www.iesm13.org
Submissions only on *EasyChair* using the following link:
