## *The Erasmus Champ*

2+ players

30-40 min

### **Game contains :**

78 cards including :

3 "**game rules**" cards

2 "**player aid**" cards

18 "**Mystery**" cards 

55 "**Questions**" cards 

### **Preamble :**

**The Erasmus Champ** is a serious game designed for players to share and acquire the key knowledge of the Erasmus+ guide (2021-2027) and to strengthen links within a team.

It is made for staff in **higher education international relations offices** who work with the Erasmus+ programme.

This game was produced by the International Relations Office of the Université Polytechnique Hauts-de-France with the participation of the EUNICE alliance universities. It is funded by the Erasmus+ programme as part of the **Peer-IR-View** project.

**Aim of the game :**

***The Erasmus Champ*** is a competitive trivia game. The first player to win all 12 stars, symbolising the European flag, wins the game.

**Game prep :**

Place the "***player aid***" cards on the table. These cards can be consulted by any player at any time during the game.

Remove the "***game rules***" cards.

Shuffle the cards and place them in the centre of the table.

Have a piece of paper and a pen ready to count the stars.

**How to play :**

1. The player takes the first card from the deck without looking at it.
2. The player (**the answerer**) gives the card to another player of his choice (**the asker**).

**3a.** If they draw a “*Mystery*”  card, **the asker** reads the card and applies the card’s effect.

**3b.** If they draw a “*Questions*”  card, **the asker** announces the category of the card (KA1, KA2, KA3, or General, Jean Monnet). **The asker chooses the question they want to ask.** Once the question has been asked, **the asker** asks **the answerer** what level of difficulty they would like to choose in order to answer, bearing in mind that:

- ★ = **DUO** (2 answer choices)
- ★★ = **QUATRO** (4 answer choices)
- ★★★ = **BINGO** (0 answer choices)

If the answer is correct, **the answerer** wins the number of stars corresponding to the level of difficulty. If the answer is wrong, no star is awarded.

**4.** Before the next turn, the card is discarded (unless otherwise indicated). The next player then draws a card.

**Ending the game :**

The first player to win all 12 stars symbolising the European flag ends the game and becomes ***The Erasmus Champ***.

**Variants :**

***The Erasmus Champ*** can also be played in **teams** of 5 or 6 players. The rules remain unchanged. The members of each team must consult one another before answering the questions. The stars are counted by team.

The game is designed to be **modular**. The questions are categorised, so you can choose to play only with KA1, KA2 or general questions.

There are 9 types of "***Mystery***"  cards, and there are 2 copies of each (18 cards in total). These cards are optional. You can play the game using only one card of each type, for example.
