

Gestion des demandes de "Merge request"

Demande de fusion des modification

Depuis votre projet
selectionner l'entrée "**Merge Request**"
puis "**New Merge Request**"

The screenshot shows the GitHub interface for a project named 'testniprojet'. In the top navigation bar, there is a link to 'Merge requests'. Below it, a 'New merge request' button is visible. The main content area displays a brief description of what a merge request is: 'Merge requests are a place to propose changes you've made to a project and discuss those changes with others.' It also mentions that interested parties can contribute by pushing commits if they want to. A large 'New merge request' button is prominently displayed at the bottom of this section.

Mettre à jour les informations demandée et choisir la branche de votre projet que vous souhaitez proposer

ainsi que la branche du projet original que vous souhaitez faire modifier

Validation d'une demande de fusion

Lorsqu'une demande de "merge request" parvient au gestionnaire d'un projet depuis une "fork", il peut alors valider ou refuser la fusion des branches. Pour accepter une fusion, il faut vérifier les modifications apportées, puis éventuellement changer le message de "commit" et enfin valider la fusion. Il est possible de discuter de la demande depuis l'interface.

Résultat

The screenshot shows the GitHub interface for a project named 'testniprojet'. In the top navigation bar, there is a link to 'Merge requests'. Below it, a 'Merge request' card is visible, showing a status of 'Opened about a minute ago'. The card includes a 'Close merge request' button. The main content area displays the 'update README' merge request. It shows the source branch 'mainbranch' and target branch 'master'. The commit message is 'update README for merge request'. There is a 'Check out branch' button and a 'Merge' button. The right side of the screen shows the 'Details' panel with information such as 'Assignee: personne - Assign to me', 'Reviewer: personne - Review', 'Labels: Label - Labels', 'Source branch: mainbranch', 'Target branch: master', and 'Last merge request: Unstaged'. The 'Details' panel also includes sections for 'Comments' and 'Changes'.
