Installation et activation sur Apple MAC OS

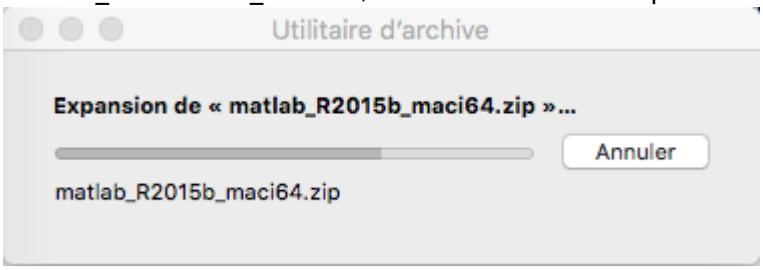

1. Localisez le programme d'installation téléchargé dans l'explorateur. Celui-ci doit se trouver à l'emplacement par défaut des téléchargements, sauf si vous avez spécifié un autre emplacement. Le nom du fichier du programme d'installation est du type ***matlab_<release>_maci64.zip***
   Où <version> correspond au numéro de la version.

2. Démarrez le programme d'installation :
3. Double-cliquez sur le fichier du programme d'installation, téléchargé à l'étape précédente.
4. Cette action déclenche l'extraction des fichiers et crée un dossier supplémentaire nommé matlab_<version>_maci64, où <version> correspond au numéro de la version.

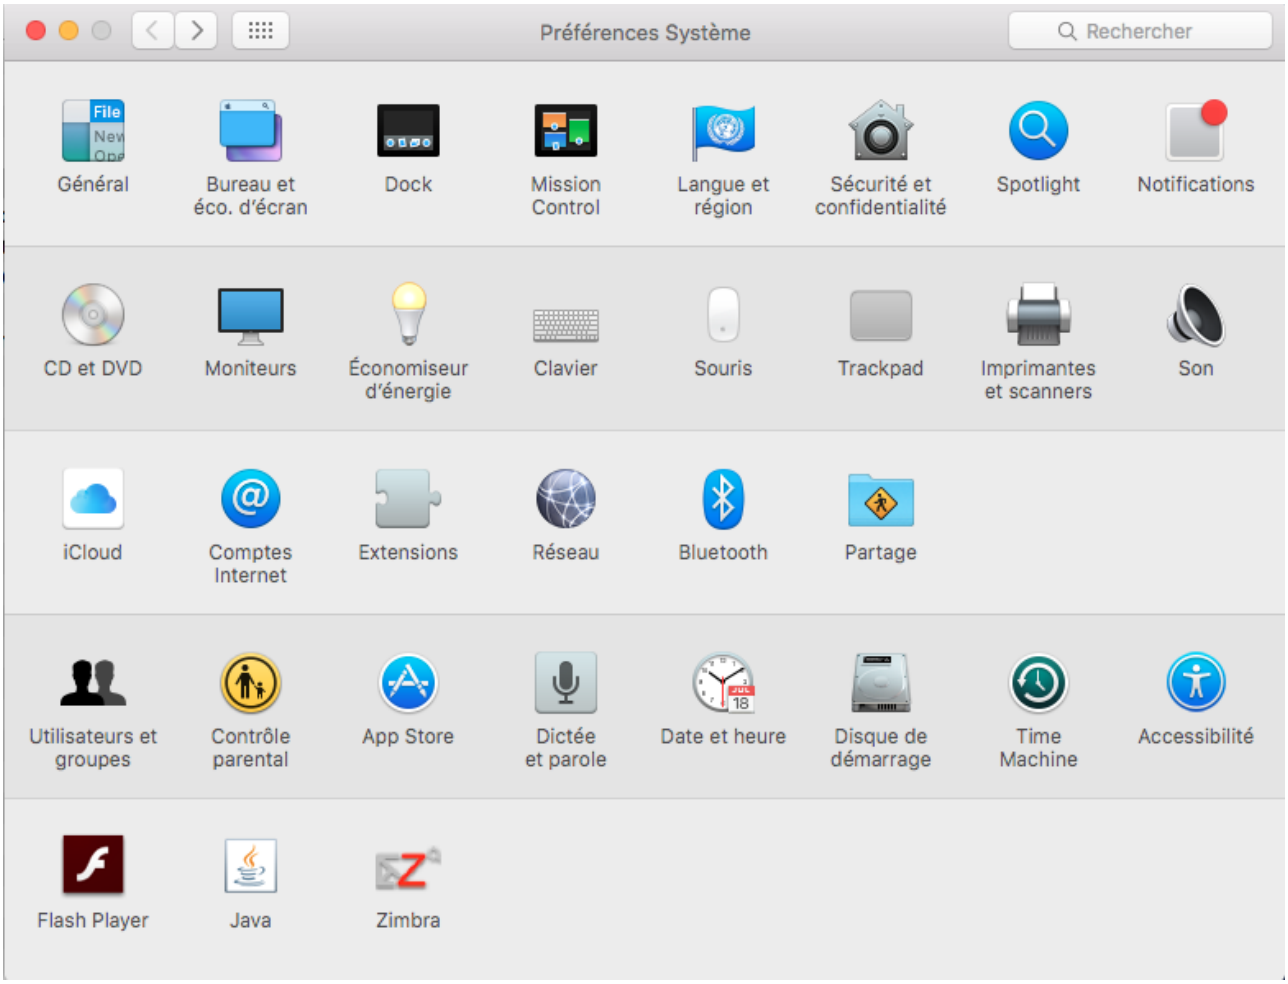

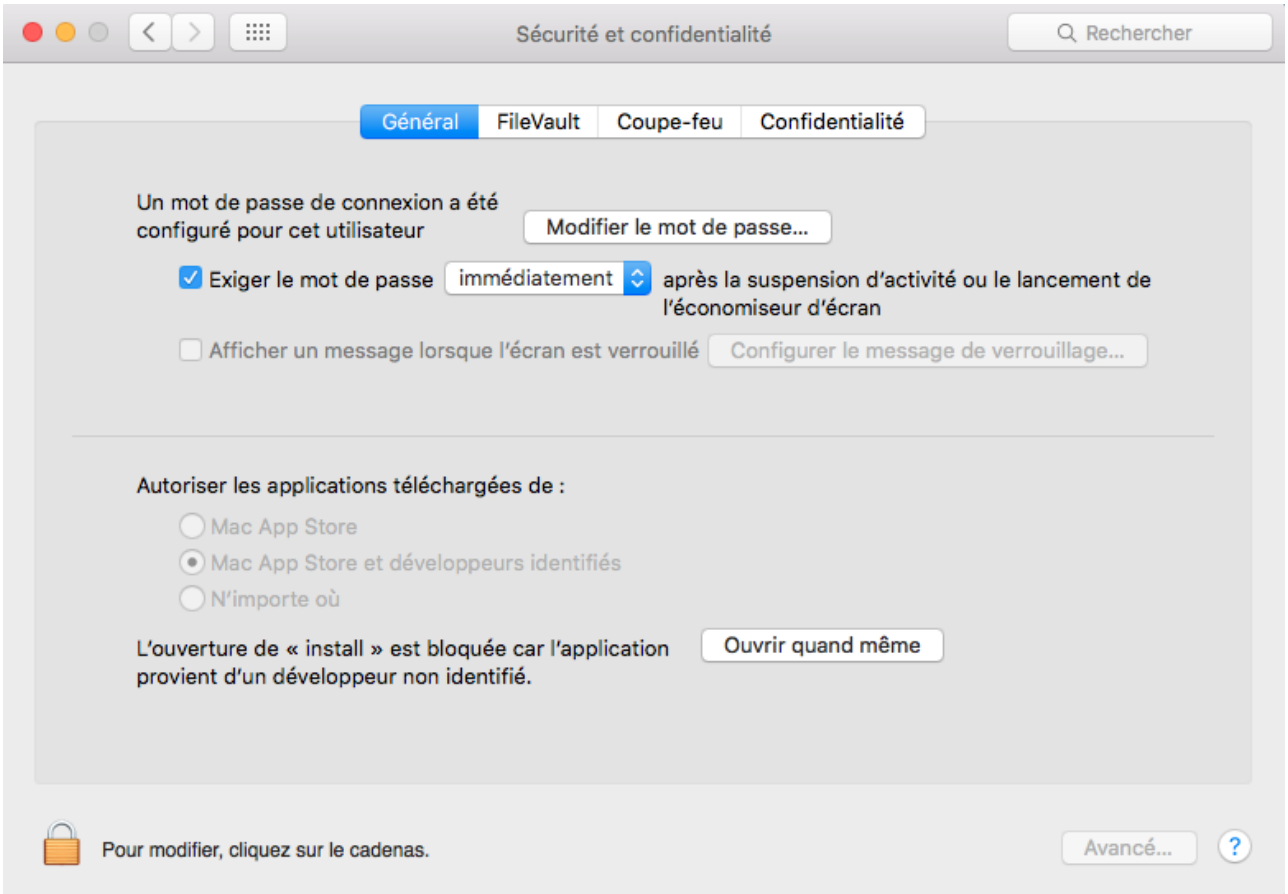

5. Ouvrez ce dossier, puis double-cliquez sur InstallForMacOSX pour démarrer le programme d'installation.

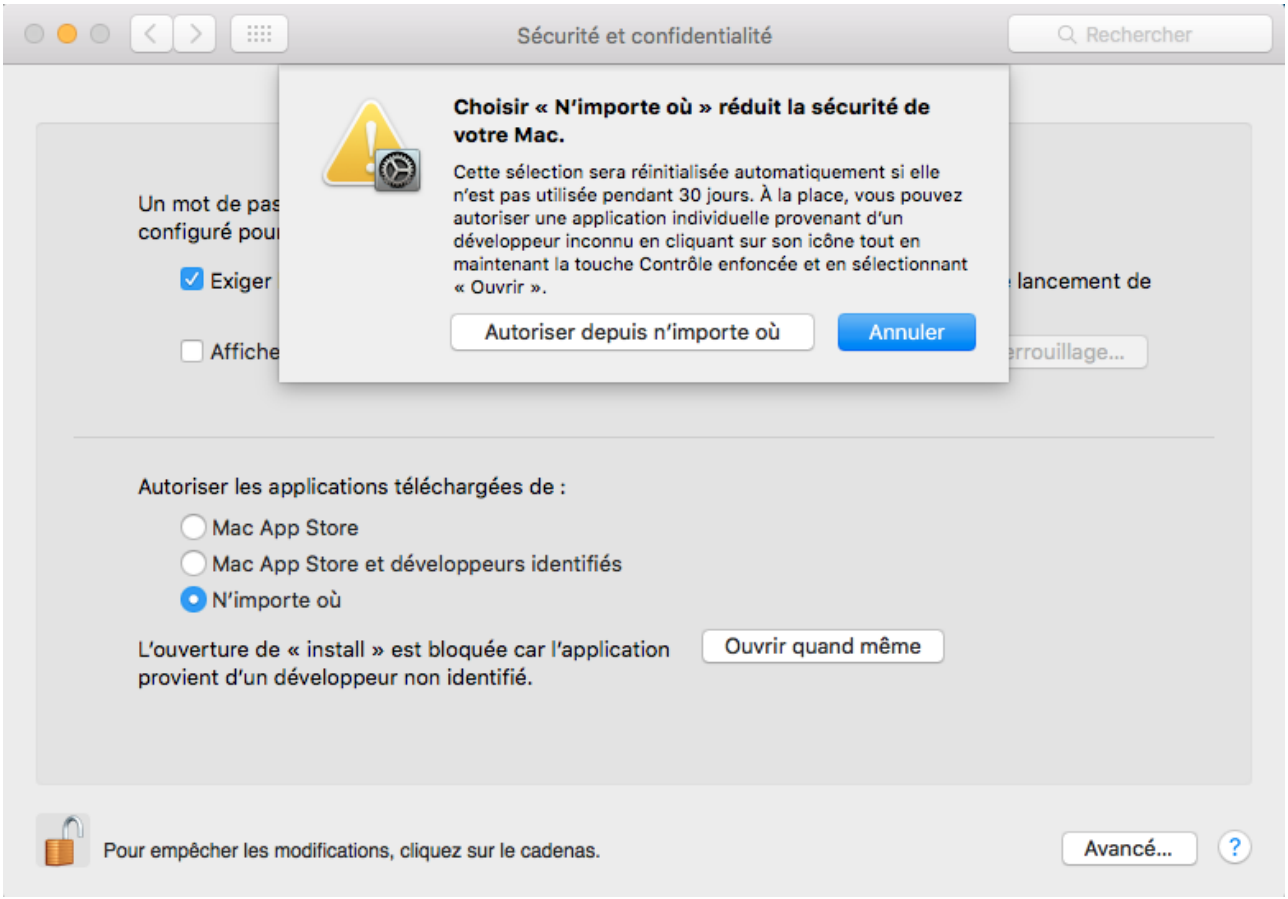

6. Il est possible que la configuration de votre MAC empêche l'installation de logiciel non certifié par Apple

MathWorks Software Activation
Activate MathWorks Software
Activation is a process that verifies licensed use of MathWorks products. This process validates the license and ensures that it is not used on more systems than allowed by the license option you have acquired.
